PROJECTS

Weather Dashboard — *Web Application*

A web app where users can check the weather for cities. It presents the current and future (the next 5 days) forecasts for that city.

Build with: HTML / Bootstrap / JavaScript / Express / Heroku and OpenWeather API.

Live at: https://youkimchhay-weather-dashboard.herokuapp.com/

JavaScript Quiz — *Web Application*

A web app where users can take a timed quiz on JavaScript Fundamental.

Build with: HTML / CSS / JavaScript and Handlebars API

Use: Model View Controller (MVC) design pattern

Live at: https://youkimchhay.github.io/javascript-quiz/
